LinkedIn: <https://www.linkedin.com/in/saikiran-mamidi>

Profile Summary

Frontend Developer with 3 years of hands-on experience building scalable web applications using Angular, JavaScript, and responsive UI technologies. Known for crafting modular, mobile-first user interfaces and collaborating with backend teams to deliver smooth, API-driven workflows. Passionate about frontend architecture, performance optimization, and expanding skillsets with React and Next.js.

Technical Skills

Languages: TypeScript, JavaScript, HTML5, CSS3, SCSS

Frameworks/Libraries: Angular (8–15), Bootstrap, jQuery, React (basic), Next.js (learning)

Tools: Git, Bitbucket, Jira, Chrome DevTools, Webpack (basic)

Design: Responsive Web Design, Flexbox

Other: REST API Integration, WordPress

Work Experience

Frontend Developer (Angular)

Office24by7 Technologies Pvt Ltd – Hyderabad

Feb 2023 – Present

- Developed and maintained multiple Angular modules for a dynamic CRM platform used by clients for sales and marketing operations.
- Built an end-to-end **email module** (inbox, sent, preview, compose, etc.), replicating a Gmail-style interface within the CRM.
- Led the revamp of CRM UI to adopt **mobile-first responsive layouts**, improving performance and UX across devices.
- Integrated 15+ REST APIs in coordination with backend developers to ensure seamless

frontend functionality.

- Designed and deployed pixel-perfect landing pages aligned with brand goals to support marketing campaigns.

Officially titled Web Designer, but functionally responsible for Angular development and frontend architecture.

Projects

Office24by7 CRM Platform UI

Tech: Angular 15, SCSS, REST API, Bootstrap, Bitbucket, Git

- Developed and optimized critical user-facing components such as dashboards, user settings, and the internal mail client.
- Migrated old UI into a clean, responsive design system with scalable component architecture.

WordPress Website for Company

Tech: WordPress, jQuery, HTML/CSS

- Built and launched the official company site, ensuring cross-browser compatibility and responsiveness.
- Created targeted landing pages focused on lead generation and SEO optimization.

References and additional projects available upon request.
